## IT'S A FIERCE FIGHT

The Battle Ground in Illinois and Neighboring States.

## CURTIS HAS BEEN THERE

Always an Ardent Republican, This Year He is a Warm Supporter of Bryan and Silver—in Valley County.

Great Falls, Oct. 26.—L. W. Curtis returned from the East Thursday morning, where he has been traveling extensively during the past three months. He has always been an ardent republican until this year, but he is a free coinage advocate now and a warm supporter of Bryan. In discussing the campaign in the eastern and central states, Mr. Curtis said to a Standard reporter to-day: "People in Montana have little idea of the fight now being waged in Indiana, Illinois, Michigan, Minnesota and Iowa. It is the fiercest battle ever witnessed in these states. I attended perhaps two meetings in the territory named and the Weed meeting held in Butte Saturday night, a report of which was contained in Sunday's Standard, is a fair sample of those being held by the McKinleyites in the states referred to. The masses are with Bryan everywhere and the associated press does not give a fair report of the enthusiasm displayed whenever the name of Bryan is mentioned. The most prominent republican speakers now refrain from mentioning his name, just as Mr. Weed and Senator Carter do in their campaign talks. Whenever and wherever his name is mentioned by a careless speaker tremendous cheers and enthusiasm follow and he is apparently the idol and hero of the common people.

"The talk about McKinley carrying Indiana and Illinois is the most absurd rot, and no well-posted, conservative man who has been through those states during the last two weeks will make such a statement, unless he is blinded by partisanship. In Michigan the contest will be closer but the electoral vote will go to Bryan by a small majority and even the conservative gold men of that state acknowledge defeat. I was agreeably surprised at the silver sentiment apparent in Minnesota and I cannot help believing John Lind will carry the state for

Bryan. The leading republicans of St. Paul and Minneapolis admit he will be elected governor by a majority of probably 5,000, and yet they claim that McKinley will carry the state by 20,000. The proposition is an absurdity on its face. Lind is loyal to Bryan and silver. He has the Scandinavian vote with him almost solid and has made a personal canvass of the entire state. In his speeches he has advised the people to not vote for him unless they also cast their vote for Bryan—as they both represent the same idea on the financial question. Some idea may be formed of how badly McKinleyites are frightened when I tell you that the goldbug newspapers of the Twin Cities are publishing sensational stories, under glaring headlines, to the effect that if Bryan is elected many of the largest manufacturing establishments and business houses in those cities will be compelled to shut down and thousands of men will be thrown out of employment on the edge of a long winter. These papers are being scattered gratuitously among the working people throughout St. Paul and Minneapolis, but are not sent outside of the cities. The edition is revised for mail purposes and the articles containing these dire predictions are cut out in order not to injure the reputation of the towns.

"The people are alive to these deceptions, however, and I candidly believe the radical McKinley organs are doing yeoman service for Bryan by abusing him as they do. I am not a betting man, for the reason perhaps that I have no money to tie up or risk in that way, but if I was inclined to gamble on the result of the election I would lay every dollar I could raise that Bryan will be elected and will carry everyone of the doubtful central states."

John Spencer, the well-known cattleman of the Sun River valley, has just returned from Chicago, where he went with a trainload of marketable steers, and he is also confident that Bryan will carry Illinois. Mr. Spencer says: "My investigations were in a small way, but there is no doubt in my mind that a very large majority of the workmen of Chicago will cast their votes for Mr. Bryan. Take the railroad men and employees of the stockyards and big packing houses, for instance, and you will find them all wearing McKinley buttons. They are afraid to express themselves for silver on account of an army of spotters being employed to watch them, but when they find a man from Montana, who is right on the silver question, they open up and say frankly that it is necessary in order to preserve their jobs to profess to favor 'sound money,' but that they are all silver men and will vote for Bryan on election day. I believe that 90 per cent of the railroad men centering at Chicago are silver men, and will vote that way. Outside of the question of finance alto-

gether, there are thousands upon thousands who are indignant that an attempt should be made to bulldoze them and who will vote against McKinley for that reason alone. The speakers sent from Montana are doing splendid work and Montana is being complimented on its faithful work and liberal contributions to assist the cause."

### VALLEY COUNTY.

W. T. Enright now has the republican campaign well in hand and is energetically leading the local McKinleyites on to a brilliant defeat at the polls.

There is every reason to believe at this time that Sid Willis is doing honest and faithful work to elect D. C. Kyle sheriff.

Charley Hall appears to have the lower right "bolt" on Lewis and will hurt him over the political ramparts in election day. As a solon Mr. Hall will grace the halls of legislation next winter.

After naturalizing a number of aliens Judge DuBose adjourned district court Wednesday and left Glasgow for Benton to pull off his outer garments and get ready for Tuesday's race.

Judge Tattan attended court at Glasgow the early part of last week, and although out of politics locally, is saying good words for Bryan and silver and local candidates on the democratic ticket of Choteau county. The judge is confining himself strictly to a large and increasing law practice.

H. A. Williams is out as an independent candidate for prosecuting attorney of Valley county.

L. C. Bronson has purchased an interest in the business of A. J. McMillan and will devote his time to compensating hair-lipped cocktails in the future. The funeral of the late Harry Wright was held Sunday and was one of the largest ever seen in this section of the state.

Senator Carter is booked for a speech in the court house at Glasgow next Saturday. He cannot save the county this year.

Mrs. Sid Willis of Glasgow has gone east on a brief visit.

Attorney General Haskell has been in attendance on district court at Glasgow during the past week. When asked to render an opinion on the probable result of the national election Henri said life was too short to discuss politics.

John J. Kerr has returned to Glasgow from Helena, where he has been in attendance on the grand lodge of Odd Fellows. Mr. Kerr is a worthy member of the order and entitled to the name.

Prairie fires are destroying many of the best stock ranges along the Porcupine river.

The remains of the late David Bonner, who was killed by a freight train last week, have been fully identified and shipped to relatives in Minnesota.

Big Oregon Spruce Trees.

George Bartley returned to Astoria Tuesday from the logging camps on the lower Necanicum, and brought with him two photographs of an immense log cut from a spruce tree and

hauled to the banks of the creek by five yoke of oxen for floating down the stream. This log is a monster, measuring 10 feet 10 inches in diameter, and is estimated to contain 18,000 feet of lumber. The largest log cut heretofore in that region contained 14,000 feet of lumber. Mr. Logan intends to cut a slice off this log and send it to the Portland exposition. It is said that there is a tree about two miles from Astoria, near the Walluski road, blown down by the recent storm, which measures 16 feet in diameter. Both this tree and the big log secured by Mr. Logan are of the best quality of spruce.

Wheat Market.  
Wheat was decidedly nervous throughout the season and speculators were evidently at sea as to whether it was better to buy or sell wheat. Weak foreign markets and heavy northwestern receipts favored lower prices. The sensational decline last week of nearly 10c per bushel suggested a sufficient reason to expect a recovery of part of that at least.

Chicago Produce Market.  
Close—December wheat, 70c; corn, 25c; oats, 15c; January pork, \$7.50; lard, \$4.50; ribs, \$3.50. Receipts: Wheat, 100,000 bushels; corn, 555,000 bushels; oats, 557,000 bushels.
